

THE ARYSTA LIFESCIENCE PRODUCT PORTFOLIO FOR CEREALS

Our portfolio for the cereals market offers a comprehensive lineup of integrated solutions that can take you successfully from planting to harvest.

Rancona V RTU *seed treatment*

The advanced generation seed treatment technology and three powerful fungicides in RANCONA® V RTU ensure you're maximizing your seed treatment investment and yield potential.

Rancona Crest *seed treatment*

Powerful combination of two fungicides with an insecticide delivered at the highest rate of any RTU seed treatment for maximum yield potential in cereals.

Pre-Pare *herbicide*

Extend your glyphosate burndown with residual control of grassy weeds in spring wheat and bromes in winter wheat that can rob moisture, nutrients, and yields.

Everest 2.0 *herbicide*

Best-in-class crop safety and dependable **Flush after flush**® weed control now with enhanced control of yellow foxtail, rattail fescue and other hard-to-kill weeds and grasses. Larger jug and higher single-use rate provides more control for the same price.

Supremacy *herbicide*

Best-in-class, post-emergent control of more than 70 broadleaf weeds, including ALS-resistant and glyphosate-resistant biotypes.

Audit 1:1 *herbicide*

Dependable choice for post-emergent control of tough broadleaf weeds.

Audit 4:1 *herbicide*

Reliable, post-emergent control of broadleaf weeds, with the added benefit of a flexible crop rotation schedule.

NextStep NG *herbicide*

A next-generation clodinafop with built-in adjuvant that offers a one-pass solution to grassy weeds in wheat.

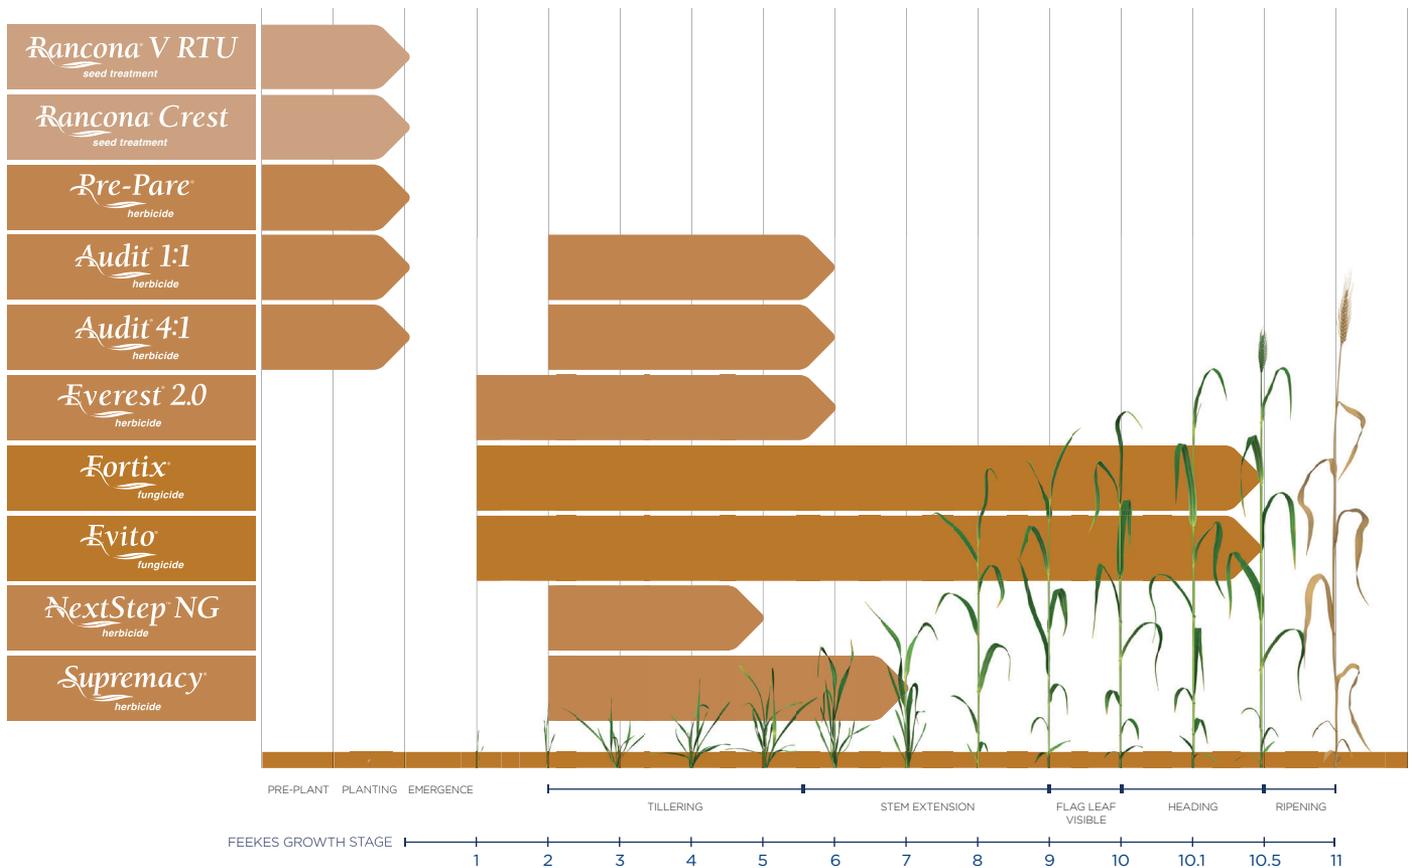

Fortix *fungicide*

A highly systemic, fast-acting strobilurin combined with a highly systemic triazole for maximum flag leaf coverage and maximum yield in spring and winter wheat. Can also be applied at herbicide timing.

Evito *fungicide*

Highly advanced, highly systemic strobilurin with quick uptake and residual soil activity for long-lasting disease control in cereals. Can be used at both herbicide and flag leaf application timing.

Application Rates and Timing

Usage Chart

	APPLICATION RATE	DISEASES/PESTS CONTROLLED
RANCONA® V RTU	4.6 fl oz/cwt seed	<i>Fusarium</i> , <i>Rhizoctonia</i> , <i>Pythium</i> , <i>Cochliobolus sativus</i> , Smuts, Bunts, general seed rots
RANCONA® CREST	5 fl oz/cwt seed	<i>Fusarium</i> , <i>Rhizoctonia</i> , <i>Pythium</i> , <i>Cochliobolus sativus</i> , Smuts, Bunts, general seed rots, aphids, white grubs, Hessian fly*, wireworm*
PRE-PARE®	0.15–0.3 oz/A	Wild oat, green foxtail, volunteer canola, cheat, Japanese brome and numerous other grass and broadleaf weeds
AUDIT® 1:1	0.4–1 oz/A	Over 65 broadleaf weeds, including Canada thistle, pigweed, lambsquarters, and mustards
AUDIT® 4:1	0.6–1 oz/A	Over 70 broadleaf weeds, including wild buckwheat, pigweed, lambsquarters, and mustards
EVEREST® 2.0	1 fl oz/A	Wild oat, green foxtail, yellow foxtail, barnyardgrass, Japanese brome, cheatgrass, mustards, pigweed, wild buckwheat, other grass and broadleaf weeds
FORTIX®	Early: 2–3 fl oz/A Late: 4–6 fl oz/A	Leaf rust, Stripe rust, Stem rust, Powdery mildew, Septoria leaf and glume blotch, Tan spot
EVITO®	Early: 1–2 fl oz/A Late: 2–4 fl oz/A	Leaf rust, Stripe rust, Stem rust, Septoria leaf and glume blotch, Tan spot, Powdery mildew
NEXTSTEP™ NG	12.8–16 fl oz/A	Wild oat, volunteer oat, green foxtail, yellow foxtail, giant foxtail, barnyardgrass, canarygrass, Persian dandelion, volunteer corn and Italian ryegrass
SUPREMACY®	4–7.5 oz/A	More than 70 broadleaf weeds, including glyphosate-resistant kochia, wild buckwheat, Canada thistle, lambsquarters, mustards, and pigweed
