

Everest[®] 2.0

EVEREST[®] 2.0 – what a difference a generation makes.

EVEREST[®] 2.0 Herbicide can be summed up in one word – relentless. With built-in safener technology, it gives growers dependable, hassle-free control of green foxtail, wild oats, bromes and other key grass and broadleaf weeds with the peace of mind that comes from best-in-class crop safety. EVEREST 2.0 also has a wider window of application, allowing you to spray whenever you need to.

An advanced, highly concentrated formulation means that EVEREST 2.0 is the ultimate in convenience. In fact, less than 2 gallons of product treat 320 acres. It's simple to use, exceptionally flexible, tankmixes with a wide range of broadleaf herbicides, and offers lasting flush control of your toughest grass weeds.

EVEREST 2.0 – easy on wheat, relentless on weeds.

WEED ACTIVITY

EVEREST 2.0 controls the weeds you see and the ones you know are coming.

---------	-----------------	--------------

*For control of difficult grassy weeds use 1 fl oz/ac of EVEREST 2.0 in combination with AUDIT[®] Herbicide or other broadleaf sulfonylurea herbicide. Apply at the pretilled stage of growth and with NIS+AMS or UAN or a basic blend adjuvant. Check label use directions for specific detail on rates and timing.

CROPS

Spring, durum and winter wheat

ACTIVE INGREDIENT

Flucarbazone

TIMING

Spring and Durum Wheat:

Apply from 1 leaf to jointing

Winter Wheat:

Applications can be made in the fall or spring from 1 leaf to jointing

RATE

Low: 0.5 fl oz (Use sequentially with PRE-PARE® or for post-emergence green foxtail control)

Standard: 0.75 fl oz

High: 1.0 fl oz (Use for high infestations or difficult to control grasses)

60 fl oz in a half gallon jug treats 80 A

4 x 60 fl oz case treats 320 A

WATER VOLUME

- 5 - 10 gal/A for ground applications
- 3 - 5 gal/A for aerial applications

ADJUVANTS

- NIS 0.25 - 0.5% v/v + AMS or UAN OR
- Basic blend at 0.5 - 1% v/v OR
- MSO 1% v/v + AMS or UAN

Note: When tank-mixing with EC based herbicides, NIS or basic blend adjuvants can be added for improved performance. Follow the restrictions of the tank-mix partner.

MIXING INSTRUCTIONS

1. Fill the spray tank ¼ to ½ full with clean water and begin agitation or bypass
2. Add the appropriate rate of EVEREST 2.0 to the spray tank
3. Add the broadleaf weed herbicide of your choice
4. Add adjuvants and micronutrients (if necessary)
5. Fill the spray tank to the required level
6. Maintain sufficient agitation during both mixing and application of EVEREST 2.0
7. Apply within 24 hours after mixing

TANK-MIX PARTNERS

For an even broader spectrum of broadleaf weeds, EVEREST 2.0 can be tank-mixed with the following products:

2,4-D, AUDIT®, Affinity® BroadSpec, Bronate® Advanced™, Affinity® TankMix, Ally®, Ally® Extra, Aim®, Curtail®, Curtail® M, Banvel®, Express®, Harmony® Extra, Harmony® GT, Huskie®, Maverick®, MCPA, Orion®, Starane®, Stinger®, SUPREMACY®, WideMatch®

CROP ROTATION

EVEREST 2.0 can be used in a wide variety of crop rotation programs based on soil types and prevailing climate conditions. Refer to the EVEREST 2.0 label to determine how EVEREST 2.0 fits into your crop rotation plans.

RAINFASTNESS

One hour
